ZC ENGINE INFO The term ZC engine is used sort of generically to describe the 88-91 CRX or Civic DOHC 1.6 liter. In reality, there are a bunch of different versions of this engine. They are both single and dual overhead cam and come both fuel injected and carburated. The only consistant thing about them is that they are 1.6 liter non-VTEC engines.

ZC ENGINE INFO - JDMCars.com

The Honda D series inline-four cylinder engine is used in a variety of compact models, most commonly the Honda Civic, CRX, Logo, Stream, and first-generation Integra. Engine displacement ranges between 1.2 and 1.7 liters. The D Series engine is either SOHC or DOHC, and might include VTEC variable valve timing. Power ranges from 66 PS (49 kW) in the Logo to 130 PS (96 kW) in the Civic Si.

Honda D engine - Wikipedia

ECU is adequate. If installing the Civic ZC into an 1986-1987 Integra is the goal, you'll need the Integra intake manifold and throttle body. Remember, the OEM wiring harnesses should be used with its own engine to make the swap easier and cleaner. The 2nd Generation of ZC's In 1988 Honda introduced the second generation of ZC's.

ZC Identification Guide - JDMCars.com

thing is everyone has got stuck on this vtec crazy. they spend \$5,000 to get 20hp. Then they spend the same amount afterwards (probably more) to get all the mods. end the end they have spent \$5-15,000 on a vtec conversion and all the go-fast parts to get 200hp from there car. where as you could do what I did and spend around \$2000 on engine work and get an aftermarket computer for \$2000 and ...

is a D16A9 non vtec engine a direct swap for a ZC ...

Droping a b16a into a 4th gen chassis isn't that hard. They do make mount kits for that car and engine that run about \$450 so that makes the swap a lot easier plus in japan some of the civics/crx's came with a b16a so making it fit isn't to involved. I have seen complete b16a swaps (including mounts, engine, tranny, ecu, axles, etc) for \$1,550 and \$1,000 without the axles and mounts. Either way you ...

whats the best engine swap | Honda and Acura Car Forums

In Honda's line-up of engines, perhaps the one which leads to the greatest amount of confusion would be the ZC engine. This engine comes in a wide variety of forms. The ZC engine comes with an engine block that has 4 cylinders, water-cooled, with bore and stroke as 75mm by 90mm, i.e. an under square design.
