Meathead The Science Of Great

Meathead has clearly and simply explained the science of live-fire cooking from understanding the role of fire and smoke to how marinades and brines work to flavor and enhance meat and lots more. Many old myths are debunked as well, using science, not heresy.

Meathead: The Science of Great Barbecue and Grilling ...

Well, Meathead does something most of them don't - he backs up his techniques with science. BBQ has existed as long as mankind so a lot of what we do is just father->son or mother->daughter (or some combination of gen 1 to gen 2) and a lot of it is wrong. Humans suck at intuition.
