### Volkswagen Passat Engine Layout

At the time, it was the first transverse engine layout Passat to be built on a Volkswagen-designed platform, rather than sharing one with an Audi saloon. The car, although designated B3 in Volkswagen's platform nomenclature, was based largely on the A platform as used for the smaller Golf model, but was stretched in all directions, and therefore had no connection with the B3 series Audi 80, launched two years earlier.

The Volkswagen Passat is a front-engine D-segment large family car manufactured and marketed by Volkswagen from 2005-2010 and from 2010-2015. Respectively the six and seventh generation Passat, and internally designated B6 and B7, they were marketed in sedan and wagon bodystyles in front-wheel as well as all-wheel drive configurations, with a range of petrol and diesel engines. The B6 debuted at the Geneva Motor Show in March 2005, and launched in Europe in the summer of 2005, using a long-wheel

Sales of the W8-engined Passat models were poor, and production was discontinued when the next generation of Passat switched from a longitudinal engine to a transverse engine layout, which made packaging of the wide W8 engine difficult. The W8 was effectively replaced by the Volkswagen 3.6-litre VR6 petrol engine.
